PROFESSIONAL SUMMARY

Results-driven **AI/ML Engineer** and Full-Stack Developer pursuing B.Tech in CSE (AI/ML specialization) at GLA University, with a strong foundation in **Data Structures & Algorithms, OOP, DBMS**, and Full-Stack Development using **Java, Python, React.js, Flask, Django, and SQL**. Proficient in end-to-end **machine learning pipelines, Retrieval-Augmented Generation (RAG)**, and **LLM-powered applications** with hands-on experience in **LangChain**, vector databases, Generative AI, and cloud-native deployment. Targeting roles in **ML Engineering, Generative AI, RAG/LLM, and Software Engineering**.

EDUCATION

B.Tech – CSE (AI/ML Specialization) | CGPA: 6.9/10

GLA University, Mathura | Expected 2028

Minor: Artificial Intelligence & Machine Learning

Intermediate – Class XII | 72%

Bal Vidya Mandir Sr. Sec. School, Lucknow | 2024

High School – Class X | 74%

Bal Vidya Mandir Sr. Sec. School, Lucknow | 2022

PROJECTS

NexusRAG – Enterprise AI Knowledge Management System

Mar 2026 – Present

React.js | FastAPI | PostgreSQL | ChromaDB | LangChain | Sentence Transformers | Gemini API | JWT | Docker | Vercel

- An AI-powered knowledge system that retrieves answers from large document collections using RAG.
- Uses LangChain and ChromaDB to search 10,000+ document chunks with sub-second speed and ~90% relevance.
- Deployed with a React.js dashboard, Gemini LLM integration, and JWT-secured role-based user access.

AI Recruitment Screening System

June 2026 – Present

React.js | FastAPI | TensorFlow | Scikit-Learn | PostgreSQL | NLP | Explainable AI (XAI)

- A smart hiring tool that automatically parses resumes and ranks candidates using machine learning.
- Uses TensorFlow and NLP to extract skills and match candidates to job requirements.
- Achieved 85%+ prediction accuracy with SHAP-based explainability, cutting screening time by 60%.

CX Analytics – AI-Powered Customer Experience Analysis

Mar 2026 – Apr 2026

React.js | Flask | Scikit-Learn | NLP | Pandas | NumPy | SQL

- An AI tool that analyzes customer reviews to detect sentiment and improve response strategies.
- Built an NLP classifier (TF-IDF + Logistic Regression) on 10,000+ reviews with 88% accuracy.
- React.js dashboard reduced negative feedback response time by 35% for data-driven CX decisions.

TECHNICAL SKILLS

Programming: Python, Java, JavaScript, C++, SQL

AI / ML & GenAI: Machine Learning, Deep Learning, NLP, Generative AI, RAG, LangChain, TensorFlow, Scikit-Learn, Pandas, NumPy, Vector Embeddings, Semantic Search, Prompt Engineering, XAI

Frontend: React.js, Tailwind CSS, HTML5, CSS3

Backend: FastAPI, Node.js, Flask, Django, REST APIs

Databases: PostgreSQL, MongoDB, ChromaDB, MySQL

Cloud & DevOps: Microsoft Azure (AZ-900, AI-900), Docker, Git, GitHub, Vercel, Render, Power BI

CS Fundamentals: DSA, OOP, DBMS, Operating Systems, Computer Networks, System Design

CERTIFICATIONS

Microsoft Certified: Azure AI Fundamentals (AI-900) – Microsoft, 2025

Microsoft Certified: Azure Fundamentals (AZ-900) – Microsoft, 2025

Problem Solving – Basic – HackerRank, 2024

Introduction to Environmental Engineering & Science – IIT Kharagpur, 2026
